Professional Summary

Motivated IT infrastructure and cybersecurity student with hands-on experience in technical troubleshooting, telecommunications, manufacturing operations, and automated systems support. Experienced working in fast-paced environments requiring problem solving, documentation, customer communication, and equipment diagnostics. Currently pursuing a B.S. in Cybersecurity & Information Assurance at Western Governors University while developing practical skills in networking, Windows administration, virtualization, Active Directory, and infrastructure support through hands-on labs and technical projects.

Technical Skills

Operating Systems: Windows 10/11, Windows Server 2022

Networking: TCP/IP, DNS, DHCP Fundamentals, Network Troubleshooting, Wi-Fi & Router Configuration

Infrastructure & Tools: Active Directory Domain Services (AD DS), VirtualBox, PowerShell Fundamentals, Command Prompt, Hardware Installation & Support

Support & Operations: Technical Troubleshooting & Diagnostics, Technical Documentation, Customer & End-User Support, Preventive Maintenance

Additional Skills: Cable & Network Infrastructure, Microsoft Office Suite, Precision Measurement & Quality Control

Technical Projects

Windows Server Active Directory Homelab

GitHub: <https://github.com/JamesStahler/active-directory-homelab>

- Built a Windows Server 2022 Active Directory homelab using VirtualBox
- Installed and configured Active Directory Domain Services (AD DS)
- Configured DNS and static IP addressing
- Created and managed domain users and Organizational Units (OUs)
- Joined Windows 10 workstation to domain environment
- Verified authentication functionality using command-line tools
- Documented deployment process and configuration screenshots in GitHub

Wireshark Network Traffic Analysis

- Performed packet analysis using Wireshark to inspect network traffic and identify protocols
- Practiced traffic analysis and network troubleshooting concepts
- Documented findings within GitHub portfolio projects

Nmap Network Scanning Analysis

- Conducted host discovery and basic port scanning using Nmap
- Practiced service enumeration and reconnaissance fundamentals
- Documented scan analysis and methodology in GitHub portfolio

Professional Experience

CNC Machinist — DRT Aerospace | October 2025 – April 2026

- Operated CNC machinery in a precision aerospace manufacturing environment
- Performed first article inspections using calipers, micrometers, depth gauges, and go/no-go gauges
- Assisted with troubleshooting machine and production issues
- Maintained detailed production documentation and quality standards

Cable Installer / Field Technician — Spectrum | April 2025 – October 2025

- Installed and troubleshot residential internet, television, and phone services
- Configured and troubleshot routers, modems, Wi-Fi networks, and customer-connected devices
- Diagnosed connectivity, signal, and network performance issues involving TCP/IP networking and wireless systems
- Documented service calls, technical findings, and issue resolutions accurately
- Provided professional customer support and technical guidance onsite

Emergency Medical Technician (EMT) — Superior Air & Ground Ambulance | January 2025 – April 2025

- Delivered emergency medical support in high-pressure environments
- Maintained accurate incident documentation and electronic reporting
- Coordinated effectively with patients, dispatch, and healthcare staff
- Demonstrated multitasking and problem-solving abilities under pressure

Mechatronics Technician — Cushman & Wakefield | July 2023 – January 2024

- Performed preventive maintenance and troubleshooting on warehouse robotics and conveyor systems
- Responded to equipment faults and conveyor jams to minimize downtime
- Operated man lifts exceeding 40 feet to inspect and repair automated systems

- Conducted scheduled maintenance procedures in a high-volume automated environment

Education

Western Governors University (WGU)

Bachelor of Science — Cybersecurity & Information Assurance (In Progress)

Clark State College

Computer Programming Studies

Certifications & Training

- Google Cybersecurity Professional Certificate
- CompTIA A+ Core 1 Passed
- CompTIA A+ Core 2 In Progress
- CompTIA Network+ Planned
- CompTIA Security+ Planned
