Professional Summary

CompTIA A+ certified IT professional pursuing a B.S. in Cybersecurity & Information Assurance at Western Governors University. Hands-on experience troubleshooting Windows systems, hardware, software, networking issues, and customer connectivity problems through field service work and self-built lab environments. Skilled in end-user support, technical documentation, device configuration, and problem resolution in fast-paced settings. Seeking IT Support, Help Desk, Desktop Support, Data Center, or NOC role while continuing toward CompTIA Network+ and Security+

Core Technical Skills

Category	Skills
Operating Systems	Windows 10/11, Windows Server 2022
Networking	TCP/IP, IPv4, DNS, DHCP, Wi-Fi, Router Configuration, Network Troubleshooting
Windows Administration	Active Directory (AD DS), DNS, Group Policy, User & Computer Management, PowerShell, Command Prompt
Hardware & Support	PC Hardware, Laptop/Desktop Repair, Printer Support, Imaging & Deployment, Preventive Maintenance
Virtualization & Security	VirtualBox, Wireshark, Nmap, Windows Security, Microsoft 365
Professional	Technical Troubleshooting, End-User Support, Documentation, Customer Service, Problem Solving

Technical Projects

Active Directory Homelab

Built a Windows Server 2022 Active Directory environment using VirtualBox.
Configured AD DS, DNS, users, groups, Organizational Units, and static IP addressing.
Joined Windows 10 client to the domain and validated authentication.
Documented deployment and troubleshooting on GitHub.

Network Analysis

Captured and analyzed network traffic using Wireshark.
Performed host discovery and port scanning with Nmap to strengthen networking and troubleshooting skills.

Professional Experience

Cable Installer / Field Technician — Spectrum | Apr 2025 – Oct 2025

Installed and supported internet, television, and voice services for residential customers.
Configured routers, modems, Wi-Fi networks, and customer devices.
Diagnosed TCP/IP, DNS, DHCP, wireless, and connectivity issues.
Educated customers and documented service calls with accurate technical notes.

Mechatronics Technician — Cushman & Wakefield | Jul 2023 – Jan 2024

Performed preventive maintenance and troubleshooting on robotics and conveyor systems.
Responded to equipment failures to minimize production downtime.
Worked safely with automated equipment and electrical/mechanical systems.

CNC Machinist — DRT Aerospace | Oct 2025 – Apr 2026

Maintained quality standards through precision inspections and documentation.
Assisted with troubleshooting manufacturing equipment and production issues.

Emergency Medical Technician — Superior Air & Ground Ambulance | Jan 2025 – Apr 2025

Delivered patient care in high-pressure environments requiring critical thinking, communication, and documentation.

Education

Western Governors University

Bachelor of Science – Cybersecurity & Information Assurance (In Progress)

Relevant Coursework: Networking, Windows Administration, Linux, Cybersecurity, IT Foundations, IT Applications

Clark State College

Computer Programming Studies

Certifications

CompTIA A+ Certification

CompTIA Network+ (In Progress)

Google Cybersecurity Professional Certificate
